Chancing It!
Exploring risk in relation to gambling
KS2 – Year 5/6

Ensure you read the guidance before teaching the lesson

© PSHE Association & Gamble Aware, 2020
The slides in this presentation are divided into two sections:

(i) **Teacher slides** (blue) – provide key information regarding lesson preparation
(ii) **Pupil slides** (white) – provide a visual focus point for pupils during the lesson and delivery notes for teachers about the activities. Click ‘notes’ to view these.

Ensure that you select ‘Use Presenter View’ under the ‘Slide Show’ tab – this will allow you to preview the teaching notes on your monitor while the main presentation is displayed on a screen/smartboard.
This lesson is designed to support pupils in key stage 2 to consider risk in relation to gambling and is intended to build on prior learning exploring the nature of risk and risk assessment. This lesson is not designed to be taught in isolation and should form part of a planned, developmental programme for PSHE education. Timings provided are approximate – teachers are expected to adapt delivery according to the needs of their pupils.

Young people are increasingly exposed to gambling and gambling-related activity, including through gaming, advertising, social media, betting shops, arcades and casinos. It is important that even at a younger age, pupils build the skills to navigate a world (both offline and online) where gambling is prevalent and start to develop a nuanced understanding of risky gambling behaviours and the impact of problem gambling on people’s health and wellbeing.
Learning objective

- To learn about risk in relation to gambling

Learning outcomes

Pupils will be able to:

- explain risk in relation to gambling
- identify how winning and losing can affect a person’s feelings and what makes someone want to take the risk
- describe what can influence someone to gamble or feel pressure to do so
- recognise who to ask for help if concerned about gambling or the pressure to do something like gambling
Preparing to teach

Climate for learning

Make sure you have read the accompanying teacher guidance notes before teaching this lesson – for guidance on establishing ground rules, the limits of confidentiality, communication and handling questions effectively.

Resources required

- Box/envelope for anonymous questions
- Flip chart paper and marker pens
- Resource 1: Gambling draw and write
- Resource 2: Chance cards

Duration

60
This has been designed to be taught as a sixty minute PSHE education lesson
<table>
<thead>
<tr>
<th>Activity</th>
<th>Description</th>
<th>Timing</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Baseline assessment</td>
<td>Before the lesson, pupils complete a draw and write activity and ask an anonymous question</td>
<td>20 MINS</td>
</tr>
<tr>
<td>2. Introduction</td>
<td>Explain what is meant by gambling</td>
<td>5 MINS</td>
</tr>
<tr>
<td>3. Dilemma discussion</td>
<td>Pupils discuss a gambling and respond to questions in relation to the dilemma</td>
<td>15 MINS</td>
</tr>
<tr>
<td>4. Analysing influences</td>
<td>Pupils discuss what might influence a person to gamble and what makes them more likely to win or lose</td>
<td>10 MINS</td>
</tr>
<tr>
<td>5. Pupil questions</td>
<td>Pupils respond to some of the questions they had before the lesson, provide additional input</td>
<td>10 MINS</td>
</tr>
<tr>
<td>6. Plenary</td>
<td>Signpost appropriate support. Pupils provide phone advice to the character from the dilemma about how to manage the scenario</td>
<td>15 MINS</td>
</tr>
<tr>
<td>7. Extension activity</td>
<td>Pupils add further advice imagining the character wins or loses the money in the scenario</td>
<td></td>
</tr>

Chancing It!

Exploring risks related to gambling
Ground rules

[Add your class rules here]
What’s our starting point?

Draw and write:

Draw or write a response in each box on the sheet... write your name at the top of the sheet.
We are learning about gambling and risk

We will be able to:

- explain risk in relation to gambling
- identify how winning and losing makes someone feel and what makes them want to take the risk
- describe what can influence someone to gamble or feel pressure to do so
- recognise who to ask for help if concerned about gambling or the pressure to do something like gambling
What is gambling?

Gambling is a risk where money (or something else of value) is swapped in the hope of winning something better (e.g. more money). Participants have no idea if they will win or lose.
Drew’s dilemma

Drew is thinking about playing a game. Drew has £5. There are ten boxes: nine contain £0 and one contains £50. Drew can choose to keep the £5 or gamble (swap, bet, play) the £5 for one box. Drew can choose which box but has no way of knowing what is in any box.
Influences

Read the card...

• Will this mean Drew is more likely to gamble or not gamble?
• Will this mean Drew is more likely to win or lose?
Question Time

Can you give answers to your classmates’ questions?
Remember...

Sometimes people can be tempted to gamble things they cannot afford to lose or can feel like they have to gamble (it can become a habit) and can cause them to worry or feel bad.

If you are worried about someone and gambling, or you are not sure whether a game is encouraging you to gamble, talk to someone you know and trust - at home or school.

The National Gambling Helpline for help, support and advice about gambling:

Where are we now?

Can you help advise Drew?

Imagine Drew has phoned to ask for advice, what would you say?
More activities

Phone a friend

Continue the phone conversation with Drew...

• Imagine Drew gambled and won. What would you advise Drew does now... and in the future?
• Imagine Drew gambled and lost. What would you advise Drew does now and in the future?
